Energy Efficient

Product Features

- Three light modes; Bed lamp, Normal and High-bright mode.
- Uses bright LED technology and produces 100% white light suitable for all indoor and outdoor activities.
- Simple yet innovative design that allows the lamp to be used as a table top lamp, a wall mounted lamp, or floodlight.
- LED's used in the lamp are tough, long-lasting and don't fuse easily.
- Easy to operate and charge using the included 3 Watt solar panel.
- Ability to charge mobile phones using the supplied solar panel and optional adapter to support different mobile phones.

Product Benefits

- Saves money used to buy kerosene.
- Portable and useful for outdoor use such as by farmers working in fields, cattle sheds, etc.
- Good lighting source for women working in the kitchen and children studying.
- Useful for increasing productivity in case of those pursuing small livelihood options as they can now work late into the night.
- Lights last for long hours, helping meet daily household lighting requirements.

- Zero emissions and no smoke, fumes, soot, etc.
- No more health hazards like irritation in the eyes, cough, chest pain, breathing problems, etc., caused due to inhalation of toxic fumes from kerosene lamps.
- Charge mobile phones at no extra cost.
- Availability of all spare parts and good after sales support.

Product Specifications

- LED Wattage : 3 Watts
- Battery : 6V, 4.5 Ah SMF
- Solar Panel : 3 Watt / 6 Volt
- ABS Plastic Body
- Microprocessor based electronic circuitry
- Optional Mobile Charger and A/c Charger
- Warranty: 1 Year on Light & 6 Months on Battery
